7. Who do you have as a role model for a healthy relationship?
Discuss these questions in a group

1. Do you think the guys and girls in the video see sex differently? How do guys see it? How do girls see it?

2. Do you think the video realistically shows how youth think about being sexually active and using protection? Explain your answer.

3. One of the boy’s friends tells him not to pressure the girl into having sex. How do you think pressure can be used in a relationship?

4. Do you think teenage boys and girls see using condoms differently? How? If so, do you think this causes problems?

5. Where in your community can youth go to talk to someone about safe sex and using protection? What do you think about these places?

6. Is there more to sexual health than preventing sexually transmitted infections (STIs)? If yes, what?

7. Why do you think some people don’t want to get tested for STIs? How could they be convinced to?

8. If you created a video about sexual relationships, what would it talk about?
