# Retraction: MyoD-dependent regulation of NF- $\kappa$ B activity couples cell-cycle withdrawal to myogenic differentiation

Maura H Parker<sup>1,2,3</sup>, Julia von Maltzahn<sup>2</sup>, Nadine Bakkar<sup>6</sup>, Ban Al-Joubori<sup>2</sup>, Jeff Ishibashi<sup>2</sup>, Denis Guttridge<sup>4</sup> and Michael A Rudnicki<sup>5\*</sup>

## Retraction notice

The authors would like to retract the article "MyoD-dependent regulation of NF- $\kappa$ B activity couples cell-cycle withdrawal to myogenic differentiation" [1]. After the article was published, the first author revealed that the tubulin blots in Figures 1A, 3E, and 4A are from unrelated samples. The lead author and co-authors apologise to the readers, reviewers and editors for publishing this erroneous data.

## Author details

<sup>1</sup>Faculty of Health Sciences Graduate Programme, McMaster University, Hamilton, ON, Canada. <sup>2</sup>Ottawa Hospital Research Institute, Molecular Medicine Program, Ottawa, ON, Canada. <sup>3</sup>Current address: Fred Hutchinson Cancer Research Center, Clinical Research Division, Seattle, WA, USA. <sup>4</sup>The Ohio State University College of Medicine, Columbus, OH, USA. <sup>5</sup>Ottawa Hospital Research Institute, 501 Smyth Rd, Ottawa, ON K1H 8L6, Canada. <sup>6</sup>Greg W Fulton ALS and Neuromuscular Research Center, Barrow Neurological Institute, Phoenix, AZ, USA.
