Hello _____ and _____,

Wow, only minor changes from our Commissioner! _____ He was very impressed with the whole tour. As always, please advise if there are any costs associated that are outside the purview of our contract 😊

Health care center: Please add the following line to the beginning of the “Nursing Care” InfoBox. We had it in the narrative, but he really wants it reinforced:

- CSC provides all inmates with essential health care based on their identified health needs.
- Le SCC fournit à tous les détenus les soins de santé essentiels en fonction de leurs besoins.

Programs room :

- Please remove both pictures chosen for the “yard” infobox. Please replace with one very plain and simple shot. Call me if you need more direction on this, or feel free to send me a couple of options via email 😊

Corcan:

- This is the biggest change. There is an issue with the tool crib in the background, since it's open with tools missing. We'll need to add an infobox here that explicitly states this is normally locked and all tools accounted for. I am working on this text now.

His only other comments were related to the “welcome” screen (which is currently being fixed) and the map, (which again I understand is being fixed) 😊

Last question: we've received comments that the font used in the infoboxes is hard to read on-screen. Are there other font options, or is the system limited to the one you've used? Just let me know 😊
