

CSC Virtual Tour

This tour provides Canadians with an opportunity to see inside a federal institution from any device with Internet access.

5 things you need to know about the virtual tour

1. What is the virtual tour?

The virtual tour consists of 360-degree panorama scenes of various areas within an institution, showcasing elements of maximum-, medium-, and minimum-security facilities.

2. Why was the tour created?

Based on the significant public interest in attending the Kingston Penitentiary tours in 2014, we know that Canadian correctional facilities remain a long standing subject of interest for the public. In addition, many victims groups have expressed interest in being able to see inside an institution.

3. How do I access the Virtual Tour?

The tour will be available on any device with Internet access. There will be a link on CSC's Web site, as well as on our Twitter page (@csc_scc_en).

4. Does my computer need audio capability?

Each room of the tour includes an audio narrative and interactive items to allow online participants to experience and learn more about CSC's institutions. A transcript of the audio elements will be provided with the tour for those who do not have audio capability.

5. Who created the Virtual Tour?

CSC's Communications and Engagement Sector developed the online Virtual Tour. Looking for somewhere to send your questions? Send CSC's e-Communications team an email at ecomms@csc-scc.gc.ca. We'd love to hear from you!
