THE FUTURE OF FIRST NATIONS,
INUIT, AND MÉTIS BROADCASTING:
conversation & convergence

The gatherings entitled "The Future of First Nations, Inuit and Métis Broadcasting" aim to bring practitioners, policy makers and academics together for respectful and meaningful consultation to celebrate successes, discuss challenges, and identify the terms of reference for the CRTC deliberations on The Future Broadcasting Policy. This event seeks to share decision-making power with the people, and to assert Indigenous rights to media democracy. For as long as the waters flow, information from the convergences will be shared to ensure that any policy changes support the development goals that Indigenous media activists, broadcasters, and community members themselves identify.
