Importance: High

Lorna –

I just spoke with Dennis Cooley and he provided me with the following numbers of inmates who have been vaccinated since Monday. He also added that in some cases at least the inmates may not have been available to be immunized. For example, they were at another appointment or in court. Some inmates may also have already been immunized before they entered the facility.

Lethbridge: 109/192
Fort Saskatchewan: 216/343
EYOC: 16/50
Calgary: 39/67

They cannot ask staff if they have been immunized but he thinks many probably have or are scheduled to be.

He has arranged for me to speak with Kim Sanderson and one of her EDs to get additional information and discuss how we can encourage all staff and inmates to be immunized. I will get back to you once I have met with Kim and Joyce.

Thanks, Trish
