RE: RCC Update- Offender Population

The total number of positive cases in the offender population is 81.

The units currently on regular programming are: Units 1A, 1C, 2D3, 3B, 3C, 5AB, 8, and Dorm 2. All other units still remain on either quarantine or isolation status. Unit 3D is expected to be back to normal operations/work at the end of the week. Unfortunately, we do not have any confirmed dates for other units at this time as results are pending.

SHA was in the facility today and will be back tomorrow and the following day to complete swabbing on all non-positive inmates. They will also be back this week to vaccinate those aged 42-47. Vaccination is important for your safety, so when it comes to your turn, please make the choice to accept a vaccination shot.

Last Friday you started receiving a Gatorade on your brunch or lunch trays. This will continue for another 5 days.

While the number of active cases starts to drop in-centre, this does not mean our health and safety standards should. It is extremely important that we continue to be vigilant in maintaining the health and cleaning practices put in place. Continue to wear your mask, sanitize/wash your hands regularly, clean high touch point areas such as the phone and tables before and after use, and let staff know if you are feeling unwell. If you are not feeling well during the night, use your intercom button or stop the Correctional Officer conducting checks and inform them of the issue.

I would also like to thank you all for your understanding as we deal with this recent outbreak. We realize it is very difficult on you, in trying to follow direction, and do what is necessary to be able to have your unit go back to regular programming. I also want to thank all those that have taken on new jobs or tasks, in an effort to aid the facility. Your help has been greatly appreciated and will continue to be appreciated as we move ahead.

Thank you,

Jenna Hansen
