Subject: RE: Testing Report

Yes of course, copy of the report coming. We had to wait awhile for validation and Deirdre just raised that there appear to more discrepancies on the next phase of the report production...we're looking at this now. Hope to get it to you asap.

Can we chat at 430? I am planning on attending the MERC at 3:30 and staying on until 4:30 to discuss some EOC issues with Jenn and Barbara. We may still be chatting a bit after 4... perhaps can I call you when we are done?

Thanks!

Subject: RE: Testing Report

Ok thanks, I know that the ACHS wants to see the report today, so can I please see a copy highlighted with what has changed since Friday??

How about 4 today for a quick call??

As for timeliness of data, in OSCAR it is always reflective of the day before, the report Deidre runs is cut off a Midnight and updated so the report she runs today does not include any of today's data, happy to discuss further.

Thanks

CC

Chris –

Laura indicated that she hasn't yet sent out the email to the RDs about sending their case/outbreak data to ACHS on a daily basis.

So, today, Deirdre produced the report and we validated numbers as usual. This morning there was a discrepancy in the Drumheller data, so we had to wait for the site to open up/come out of morning meeting (930am their time/1130am our time) to validate the numbers.

It raises for us the feasibility of reporting yesterday's numbers before 11am or noon EST everyday.

Could you and I have a brief chat later today about the timing of this report?

I asked Laura to hold off on sending the instructions to the RDs until we connected. Won't be long; I just want to fully understand how 'real-time' the data need to be. I think an 11am RD report might be unrealistic, now.

Let me know what time works best for you! We'll keep the machine running as usual until then...

Thanks!

Emily

Subject: Testing Report

Hi there,

I just realized that Laura is away today, did you get what you needed to validate the testing report, I think we only needed from Quebec and Prairies??

Thanks

CC
