Yeah the ballcap one did quite well also – wasn't sure we wanted to go with it given it requires the obvious – a ballcap to make it functional (i.e can't just be worn on it's own).

When we chatted Friday – we weren't sure we wanted 3 choices – and thought 2 might be better.

Thanks this is very well done!

It looks like the ballcap scored higher than the Levitt Safety across the board, interesting as the Levitt is a close third.

Maybe we have 3 choices??

Can we get this translated?

Thanks again

CC

Semini was gracious enough to roll up all the information that Emily received from the sites for this one – so we could then review the information. She has all the information in 3 documents – but I suspect you'll likely want the 1 pager with the pictures of the masks (it's the word document, the other 2 are excel spreadsheets).

The top 2 facemasks were the:

ApexLab eyegoggle frame face shield

Levitt Safety/Honeywell UVEX face shield

Ok thanks can you please send me the summary evaluation form for the Faceshields?

Thanks

Subject: Faceshield evaluation

Hi there,

Jenn has decided that we will not present the results of the Faceshield evaluation on Wednesday, still presenting on N95's.

In order to prepare can you please send me the compliation of the evaluation for all faceshields we trialed?/

Also copying Semini here to get it translated.

Thanks

CC

Also still working on the memo Jeremy drafted on Friday, will have it for tomorrow.

Thanks

CC
