---

Hello,

As of 2pm today, we have been made aware of at least 6 facility transmissions from 2 non-assessment/non-isolation units since Saturday November 19<sup>th</sup>. The SHA has been advised and we are anticipating that they will declare an outbreak at SCC, either for the entire facility or they may limit it to the two units where the positives came from. We have been able to isolate the 6 within our bedspace but any more positives, especially from a dorm unit may have to stay on their unit. We anticipate that this will revert SCC back to Phase 0 resulting in the resumption of Medium/High Risk strategies (continuous masking, limiting facility access, cessation of mixed unit programing, 10 days isolation, etc).
