Subject: PDYC Outbreak Status Updates
Date: Thursday, February 9, 2023 4:09:23 PM
Importance: High

Please be advised,

PDYC Nursing staff spoke to PHS about our youth and the status of our Outbreaks. They were informed of the following about what infections qualify as Outbreak Status.

1. Rhinovirus youth:

- Our 2 youth with RV(Rhinovirus) are considered as **Outbreak Status for RV**. The **OUTBREAK RV # is: RQHR 2023-027**. **The MHO MUST lift the Outbreak.**
- The outbreak status for RV is typically 7 days- thus PHS will contact the nurse on Saturday 11-Feb-23 to ensure Unit 1 /2 boys are asymptomatic- if so then the RV Outbreak Status will be lifted.

2. Covid Positive youth:

- Our **OUTBREAK COVID # is: RQHR 2023-026**
- Covid Outbreak Status **typically lasts 14 days** from the last positive covid case in each unit (Unit 2 Isolation) **The MHO MUST lift both of these Covid Outbreaks.**
- Unit 3 is currently QUARANTINED until 2359hrs on 13-Feb-23- there is a chance this could get extended. All outside appointments(off grounds) and contact visits (professional or personal) until the MHO lifts Covid Outbreak .
