Subject: RE: ACTION (AHS ECC) - Request for Input on Release of Inmates in Alberta Due April 27

Hi Tina – I'm getting my answer in before the deadline for once!

Dr. Keith Courtney (AHS Correctional Health Medical Director) followed up with Dr. Greg van Wyk (federal corrections) on this issue after our call today. We have confirmed that in both provincial and federal corrections, the facility health services would contact AHS Public Health in advance of the release to establish where the person is being released to, where they are going to get care, etc. and make any necessary public health arrangements associated with the release.

Subject: ACTION (AHS ECC) - Request for Input - AR 171381

Hi AHW EOC,

Can you please request input from AHS ECC on the following question:

21(1)(a)(iii)(A)

21(1)(a)(iii)(A)

wants to know what steps are being taken by Alberta jails to ensure that prisoners who are released are not carriers of the novel corona.

Justice and Solicitor General has forwarded the question to us, though I am requesting input from them as well about monitoring for COVID-19 in prisons and asking about what kind of notification they are providing to AHS when they release folks.

Is AHS able to provide any input with respect to tracking people who have been released from prison? Are they receiving notification about people being released? Would they have a mechanism to trace people's activities if they know they have been released?

If there is input, please ask to have it back by Monday, April 27, EOD.

Thank you,
kerry
