INTRODUCTION

Welcome! We're glad you're here. *Forced Migration in Canada* is intended to be a comprehensive repository of teaching and learning resources related to displacement to, and in, Canada, from colonization and slavery, to trafficking, statelessness and refugee protection and resettlement. In each section, we have compiled multimedia resources to introduce students, researchers and the general public to the key issues.

Some of the videos have been specifically created by the Collaboratory on Forced Migration in Canada, funded by the Social Sciences and Humanities Research Council and the University of Ottawa. Others have been curated from existing pedagogical, media and public education sources. This open educational resource received support from the University of Ottawa Library OER Grant. If you would like to suggest additions, or notice any broken links, please contact Christina Clark-Kazak (cclarkka@uottawa.ca).
