**Re: Custody, Supervision and Rehabilitation Services COVID-19 Pandemic Update**

The total number of positive cases in the offender population is 1.

Despite the lifting of restrictions in the community, our Adult and Youth Custody facilities are not mirroring the province's lifting of the Public Health restrictions. Adult and Youth Custody continues to review our policies with the intent of easing some of the current protocols, while at the same time maintaining focus on staff and offender well-being.

**Mandatory masking is still in effect.** Any changes to Personal Protective Equipment requirements will be as per policy and in consultation with Occupational Health and Safety, and Public Health. It is important to note that any easing of protocols may change dependent on facility circumstances.

Vaccines help protect yourselves and your families. They are the best way to stop the spread of COVID-19, make our communities safer, and can help us resume our normal lives and end the pandemic. Make a wise decision when it is your turn. If you are unsure, the nursing clinic will be able to provide you with more information.

We will be receiving a supply of the Pfizer vaccine next week, for those who would like a second shot and do not want to mix doses. If you have questions on how to sign up, please forward them to your Unit ADDP.

It has been apparent that a large number of the inmate population is not wearing their masks. This is unacceptable and if not compliant, you may receive an institutional sanction. Although the number of positive cases are looking better, the Delta variant is active. We must ensure that all current cleaning, sanitizing, and safety protocols remain in place on units and are being practiced.

Your cooperation with this is appreciated. Have a good long weekend.

Jenna Hansen
