

# COVID-19 UPDATE

**Please be advised that in the wake of COVID-19, Calgary Remand Centre (CRC) has implemented the following interim procedures related to professional visitation at the centre.**

**Effective immediately, all in-person professional visitation is suspended. If legal counsel or police / immigration require an in-person meeting with an inmate, then they must make advance arrangements through the Central Control Supervisor.**

**All pre-approved visits in the visiting area will be held between glass partition for legal counsel or police / immigration and inmate, with hygiene and safety considerations being paramount.**

**As an alternative, lawyers, police, immigration and all other professional agencies, may telephone the Central Control Supervisor to request the inmate to telephone them; however, inmate telephone response may be delayed pursuant to centre operations, routines and constraints.**

**Our focus is on the health and safety of our clients, volunteers and staff and we thank you for your continued support during this challenging time.**
