**Subject:** Spring 2021 - Conferences & Training Courses

Forwarding email re. Spring training courses offered by SHEA, as part of the Spring 2021 conference (virtual event)

SHEA - The Society for Healthcare Epidemiology of America has many Canadian members.  
The organization offers excellent training programs (IPC, OHS, Epi) and resources.

<https://www.xcdsystem.com/shea/program/Xui9zym/index.cfm>

In Canada, the two key meetings for IPC and ID-Micro are also held in the spring by professional associations  
IPAC Canada and AMMI-Canada

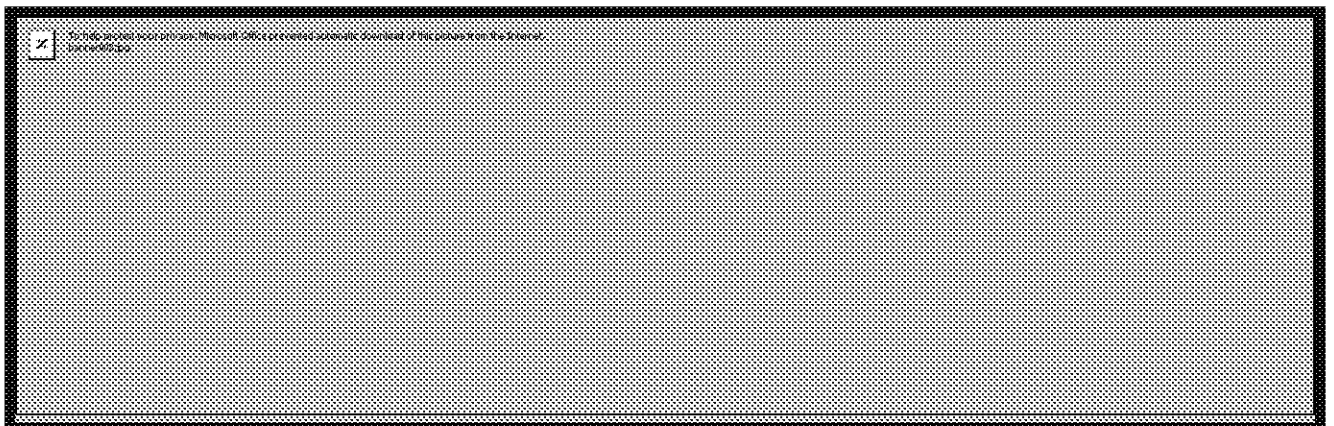

<https://ipac-canada.org/conference-and-education.php>  
<https://www.ammica.ca/Annual-Conference/>

Sharing for your information for future consideration  
Not sure if staff have access to an institutional membership for IPAC.  
(PHAC and ISC staff working in relevant areas of practice have access to membership).

Kathy

[View Online](#)

Training Courses will be held the week prior to the SHEA Spring General Sessions. There will be On-Demand Content in addition to the live content that will launch April 1 with the live courses beginning April 7, 2021 and ending April 8, 2021. The SHEA/CDC Training Course in Healthcare Epi extends to Friday April 9, 2021.

## Important Dates

**Early Rates End**  
March 26, 2021

**Late Rates Begin**  
March 27, 2021

### **SHEA/CDC Training Course in Healthcare Epidemiology**

This course continues to build upon the success of the SHEA training course held during previous SHEA meetings which is a great opportunity for Fellows and Infection Preventionists to take a deep dive into this specialty.

### **SHEA Antibiotic Stewardship Training Course**

This course is designed for pediatric and adult infectious diseases physicians, healthcare epidemiologists, microbiologists, pharmacists, and other healthcare providers who are involved with creating, implementing, or improving an antibiotic stewardship program for their healthcare institution. Healthcare professionals representing all sizes of institutions will find the content relevant to their needs.

### **SHEA/AMDA/CDC Infection Prevention in Post-Acute and Long Term Care Course**

The SHEA/CDC/AMDA Infection Prevention in Post-Acute & Long Term Care Course will address aspects of infection prevention that are unique to skilled nursing facilities, where residents share dining, recreation and rehabilitation experiences. The course will review occupational health concerns in long-term care, including outbreaks that affect both staff and residents, such as influenza and norovirus and also emphasize opportunities to reduce unnecessary and inappropriate antimicrobial use. Presenters will specifically discuss communication at care transitions and ways to educate talking with concerned family members, who may have been taught myths and misinformation.
