I/M^{23(2)(h)(i)} returned from his assessment in Alberta on 02 November 2020 at 1845 and was placed in HSA for 14 day isolation due to COVID-19 precautions.

I/M was on Secure Handling when he left NSC and will remain on Secure Handling until his behaviour proves he can be removed.

I/M still has 20 days Disciplinary Segregation time remaining which will be served as below:

- 02-15 November 2020 until 1845 - Med ISO
- 15-16 November 2020 until 1845 - SLU Open Living for 24 hours
- 16-21 November 2020 until 1845 - Secure Cells

Report time: 2020/12/16 16:28

Inmate brought to medical area without PPE on. Was flagged on health screening questionnaire that he has COVID like symptoms. I instructed officers and inmate to don full PPE. Inmate also has a large injury to forehead that he states ^{23(2)(h)(i)} caused and was not looked at by RCMP. Inmate to be sent to Stanton hospital to assess forehead. Writer spoke with RN at Stanton ER and relayed suicidal thoughts and possible COVID symptoms. Upon return to NSCC inmate is to be placed on close observation for suicidal ideation, and droplet and contact precautions.

General report

Author: RINTOUL, WILLIAM M

Report time: 2020/12/16 22:44

Subject returned to STH at 1905 and was placed under close watch camera cell #211 secure on droplet and contact precautions.

15 min close watch protocol initiated for suicide ideation.

Confinement forms delivered.

DWO Rintoul.

Report time: 2020/11/25 21:36

On this date and approximate time while delivering snacks in the SLU, Inmate^{23(2)(h)(i)} approached me and told me he wasn't feeling very well. I asked him if he was feeling any symptoms of Covid 19, he said he wasn't feeling really like himself all day and felt nauseous. I advised^{23(2)(h)(i)} that if he was feeling this way, due to the new Covid 19 procedures, he would have to secure in his cell until he could be seen by medical.

ADWO Hughson was informed.

At Approximately 2215 Inmate^{23(2)(h)(i)} was moved from the SLU to Med Holding 215 wearing complete PPE. Droplet Precaution signage was placed outside of Med Cell.

Cell 204 in SLU was Terminally Cleaned.

CO1 S. Lafond
