Subject: FW: Additional Abbott ID NOW Testing Machines

Good Morning Laura,
 I hope you are well. Please see the roll-up below with the requests on behalf of the PRA as compiled by Lindsay Reddick. As I understand, two additional machines have already been shipped to Drumheller and once their initial machine has been replaced, they will have a total of 3 on site. Thanks so much for expediting the machines for Drumheller Laura.

Subject: Additional Abbott ID NOW Testing Machines

RDs,

We have received confirmation that there are additional Abbott ID NOW Testing Machines that can be made available to CSC.

If you are interested in Additional Abbott ID NOW Testing Machines please reply by **February 17** indicating:

- **# of Additional Abbott ID NOW Testing Machines requested**
- **List of sites machines will be deployed to**

As a note, the *ID NOW tests have a shelf life of 6 months*. I believe ours expire in June 2021, however this can be validated with the expiration date on the tests themselves. In order to avoid wastage, we encourage you to monitor your test inventories and plan for usage prior to the expiration date. If you will be in a situation where you have surplus tests set to expire, please indicate this to NHQ as early as possible so that the tests can be reallocated or returned to PHAC at their request.

Thanks!
