**Re: Custody, Supervision and Rehabilitation Services COVID-19 Pandemic Update**

The Regina Correctional Centre is once again dealing with a rise in the number of COVID-19 cases within the facility. We currently have one unit under isolation status. There are a total of 5 positive cases in the centre.

We are in contact with the Saskatchewan Health Authority and Public Health on managing this situation. There may be a recommendation to conduct large scale testing, we ask that for your own health and that of others that you agree to comply when asked.

It is important that you continue to follow the protocols put in place throughout this pandemic. We want to minimize the spread and risk as much as possible. You, the inmate population, can assist by:

- Wearing your mask appropriately at all times when in common areas
- Cleaning and sanitizing common spaces and high touchpoint areas, including shared tables, bathrooms, and showers
- Frequently washing/sanitizing your hands, including before eating
- Taking advantage of the weekly vaccination clinics held at RCC

Vaccines help protect yourselves and those you are residing with. We have learned that our protocols (face mask wearing, cleaning, etc.) and vaccinations are effective tools in the fight against this virus. They are the best way to stop the spread of COVID-19, please make sure you are doing your part and following protocols. If you have "not" been vaccinated, now is the time to re-consider your decision. The vaccines, aid people in not becoming critically ill. If you are unsure, the nursing clinic or your Unit ADDP will be able to provide you with more information.

Thank you for your continued cooperation. Have a good weekend.
