Response :

- a) the number of inmates placed in segregation from 1 March 2020 to 30 August 2020**

The answer is NIL (0). No inmates were placed in segregation for the given time period, because Segregation was abolished in Correctional Service of Canada as of November 30, 2019.

- b) information on how long (i.e. 5 days) these inmates were placed in segregation 1 March 2020 to 30 August 2020**

The answer is N/A (not applicable). No inmates were placed in segregation for the given time period, because Segregation was abolished in Correctional Service of Canada as of November 30, 2019.

- c) the number of inmates placed in a Structured Intervention Unit from 1 March 2020 to 30 August 2020**

Between March 1, 2020 and August 30, 2020, there were 1,131 transfers of offenders to SIU's nationally. The data set we have focus on transfers, not on specific offenders, as each transfer starts in motion a new process with new benchmarks and new requirements.

d) information on how long (i.e. 5 days) these inmates were placed in a Structured Intervention Unit from 1 March 2020 to 30 August 2020"

If we focus on the 1,131 transfers that started during the reporting period, we run into a couple of biases, around how to calculate the actual duration for the transfers that have not ended yet. We wanted to avoid assigning an artificial end date as of the end of the reporting period for these cases, in order to be able to answer to your request. That's why the best and most accurate response we can provide is to focus on all the transfers that has ended during the requested timeframe, no matter when they started.

There were 1,155 SIU transfers that ended between March 1, 2020 and August 30, 2020. The average duration of those transfers was 36 days. The shortest transfer was for one day. The longest transfer was for 271 days.
