

# FACT SHEET about the COVID-19 Vaccine

**The vaccine is the best way to protect yourself** against symptoms and complications related to the virus.

**Get the vaccine when it is offered to you!**

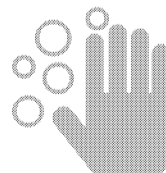

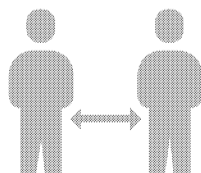

**All inmates will have access to the vaccine this spring.**

**2X**

**You need to get two doses for the vaccine to work best.**

Side effects may include soreness at the injection site, headache, fatigue, and muscle and joint pain.  
**Most people have little or no side effects.**

**Even with the vaccine, it is still very important to continue to wear a mask, maintain physical distancing, and wash your hands often.**

**Do your part,  
ask Health Services about the vaccine**
