Subject: Signage Info - Professional Visits

Non-responsive

In-person professional visitation is suspended in all facilities.

If legal counsel and/or police require an in-person meeting with an inmate/young person, they may make advance arrangements with the respective facility for the visit to occur in visitation areas where there is a glass partition between the legal counsel/police and inmate with hygiene and safety considerations being paramount.

As an alternative, lawyers, police, and other professional visitors may telephone the respective facility and request the inmate to telephone them; however, inmate telephone response may be delayed, pursuant to facility routines and constraints.
