Subject: RE: CSC rapid tests

Hi Laura,

Yes, please report each Friday. I'll include your updates in the next report.
I'm not certain about the 150,000 vs 148,000 as this comes from the Eagle report. I've cc'ed my colleagues Sophia and Tim to see if they know the variance.

Thanks,
Chris

Subject: RE: CSC rapid tests

Hi Christiaan,

We are actively working on this report. Please note that the use/results of the tests may take us a bit longer to pull data. Would it be sufficient to submit the request for this Friday and every Friday weekly going forward, as per Zia's e-mail?

Also, please note that our notes show CSC to have received 152,000 Pan Bio tests. I think the variance (4,000) from your identified 148,000 is related to 5 boxes that we received and delivered personally on Nov 27, 2020.

Subject: CSC rapid tests

Good morning Jennifer, Laura and Semini,

I'm responsible for tracking and reporting on the use of rapid tests that the Government of Canada has sent to the provinces and territories as well as to various federal departments. Could CSC please provide me with an update on the number of rapid tests that it has used to date as well as the location and purpose of their use?

Please send me an update by noon tomorrow so I can incorporate it in this week's update would be appreciated.

Additionally, my Executive Director Zia Proulx will be reaching out to you in the coming days with a template for you to fill out and send back each week in order to simplify the reporting process.

Thank you,

Christiaan Shanahan
