OAAPH [now known as the National Aboriginal Health Organization (NAHO)] receives funding from Health Canada to assist it to undertake knowledge-based activities including education, research and dissemination of information to promote health issues affecting Aboriginal persons. However, the contents and conclusions of this report are solely that of the author and not attributable in whole or in part to Health Canada. The National Aboriginal Health Organization, an Aboriginal-designed and –controlled body, will influence and advance the health and well-being of Aboriginal Peoples by carrying out knowledge-based strategies.

## Introduction

In 2010, Inuit Tuttarvingat of the National Aboriginal Health Organization (IT of NAHO) began a project to address social service gaps and needs for Inuit children. With the invaluable guidance of a broad-based Reference Group, the focus of the research became Inuit child welfare and family support. Lisa Rae, a Sauvé Foundation scholar based at McGill University, compiled four reference lists related to the topic. In addition to this list of International Indigenous documents, three other lists are available:

- *Inuit Child Welfare and Family Support – Inuit-Related Documents.*
- *Inuit Child Welfare and Family Support – Aboriginal-Related Documents.*
- *Inuit Child Welfare and Family Support – General Documents.*

For these resources and other information on Inuit child welfare and family support, please visit [www.naho.ca/inuit](http://www.naho.ca/inuit).
