Hi, I would use the first angle with cells (the one with 2 ranges).

Is it possible to have the image 1170*347 by the beginning of the afternoon tomorrow.

Thanks!

Hi (

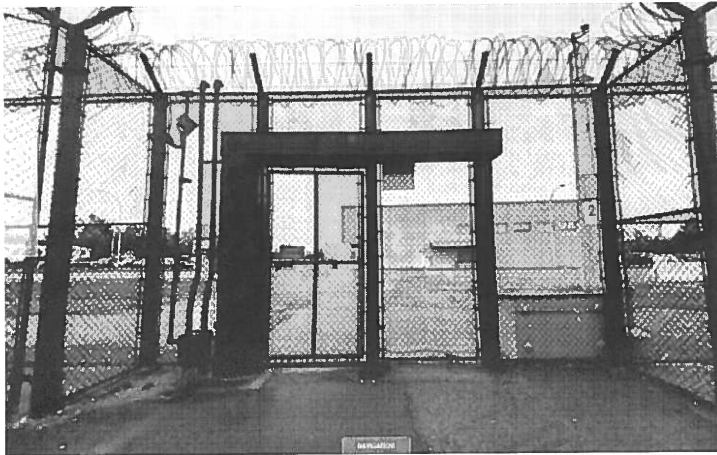

I suppose our biggest challenge here is that we don't really have a screenshot that represents "prison", since it's actually very different than what people expect.

Would these be better?

- The first one has the barbed wire, but it's not a very interesting image.
- I have provided a range with cells from two different angles

- Or a static shot of a gated range.

Please let me know what you think. Thanks!

Hi, we would have a place in position 4 for the week end. Would it be possible to have an image which is more representative of a penitentiary? Something that people will immediately know that it's a prison, something which catch the attention.

Thanks.

Hello

CSC has developed a Virtual Tour of an institution, and we'll be launching it for the public on Friday!

We were hoping to have this added to the Carousel. Can you please advise if this is possible? Thanks!

Image is attached, and the text is below.

- **Beyond the Fence: A Virtual Tour of a Canadian Penitentiary**
CSC's Virtual Tour provides an opportunity to see inside a federal institution from any device with Internet access. The tour consists of 360-degree panoramic views of various areas within an institution, showcasing elements of maximum-, medium-, and minimum-security facilities. [View the tour.](#)
- **Au-delà des murs : une visite virtuelle d'un pénitencier canadien**
La visite virtuelle du SCC donne l'occasion de découvrir l'intérieur d'un établissement fédéral à partir d'un appareil doté d'un accès Internet. La visite virtuelle présentera des vues panoramiques à 360 degrés de divers secteurs d'un établissement et permettra de voir des éléments d'établissements à sécurité maximale, moyenne et minimale. The URL will be as follows, and I will work to get you a tagged URL ASAP. Please let me know what else you need to move forward with this. Thank you!
