Hi

At this time, I would like to confirm that CSC will have a 10' space at the upcoming Innovation Fair on April 16th.

You will find attached more detailed information that will assist with the planning of your kiosk, a full outline of the day's events, as well as a template to identify any specific set up and technical requirements you will have. I would ask that you please return the completed template to me no later than **Wednesday April 1st** so that we may ensure you have the necessary support required.

In addition, a promotional package will be shared with your departmental engagement champion this week that will include a poster, as well as a distribution email encouraging all employees to attend. Please note that registration is only required for the presentations, workshops, and networking that will take place throughout the day, however individuals can visit the tradeshow at their leisure without having to register.

We look forward to welcoming you in April!

Thank you,

Conseillère / Advisor

Secrétariat national pour Objectif 2020 / Blueprint 2020 National Secretariat

Hi

I am leading on the tradeshow aspect of the Innovation Fair and I just wanted to follow up with you to see if CSC was still interested in getting involved in the fair. The easiest way for to get involved is to host a booth at the tradeshow but as my collèague Joyce mentioned in her email below, there is also opportunity to showcase your virtual tool with a presentation during a FedTalk session (and we think it would fit in really well there). There is also opportunity to do both!

The objective of the fair is to foster innovation through the sharing of best practices and lessons learned related to the implementation of Blueprint 2020 and the tradeshow is an opportunity for departments to showcase their latest Blueprint 2020 initiatives and their progress towards the Blueprint 2020 vision.

The tradeshow area will be open for the full day from 9:30 am – 4:30 pm.

We want to ensure to the best of our ability that everyone who has expressed interest in participating in the tradeshow will have the amount of space necessary to effectively showcase their initiative(s). With that in mind, we are asking all interested booth holders to please let us know which of the three space options they would require as soon as possible:

Poster Space (4 feet) – The space will include a small table, and space to post documents on the wall. This space is ideal for exhibitors that want to share their information using tablets and/or small posters

Innovation Space (7 feet) – The space will include a medium size table. This space is ideal with exhibitors who would like to set up laptops or other table top displays. Please note you will not be able to post anything on a wall in these spaces

Booth Space (10 feet) – The space will include 1 five foot table. This space is ideal for those with large backdrops and departments who will have several groups show casing initiatives under the departmental banner.

All booths will be confirmed and a more detailed information package will be sent next week.

If you have any questions, please let me know or feel free to give me a call.

We look forward to welcoming you in April!

Subject: RE: Interdepartmental Innovation Fair / Salon interministériel de l'innovation

Trying again.

I agree with you what you're proposing sounds really interesting and definitely the type of initiative we'd like to showcase. There are two ways we could do this; with a presentation during a FedTalk session or a kiosk in our tradeshow.

There will be 5 FedTalks at the Innovation Fair:

- Fundamentals of Public Service
- Processes and Empowerment
- Technology
- People Management
- Innovative Practices and Networking

Each FedTalk is 30 minutes long, with 2-3 presenters will each give 5 minute Ignite style presentations, followed by 10-15 minutes for questions and answers.

Each FedTalk in the series will communicate concrete actions that have taken place/are taking place related to Blueprint 2020. Audience members will be able to walk away and think about how they can do similar things in their own departments/agencies or how they can use the new tools/processes that are being put in place.

I think your virtual tool would fit perfectly into the technology FedTalk but am not sure that a 5 minute presentation would be an adequate amount of time for you to demo it. Your other option would be to host a kiosk in the tradeshow and demo it at your kiosk. The tradeshow room is equipped with WiFi and we can chat about any other technology you might need at your booth.

I'm happy to have a chat about the two options but and really open to which ever one you prefer.

Enjoy your weekend!

Good morning,

Thank you for the opportunity to participate and be involved in this exciting Fair. CSC would be please to showcase the virtual tour of a penitentiary entitled "*Beyond the Fence: A Virtual Tour of a Canadian Penitentiary*". This virtual tool provides Canadians with an opportunity to see inside a federal institution from any computer with Internet access. Viewers can tour a minimum,

medium and maximum security cell and range, as well as various other areas of an institution including the chapel, workshop, programs room and health care centre.

Given it's innovative nature, I believe it would be a perfect fit for the fair.

I look forward to hear from you.

Merci!

Dear colleagues,

Chair, Board of Management and Renewal Sub-Committee on Public Service Engagement, sent the attached e-mail to your deputies inviting them to participate in the first Interdepartmental Innovation Fair which will take place at Industry Canada's new Service Lab on April 16, 2015.

The objective of the fair is to foster innovation through the sharing of best practices and lessons learned related to the implementation of Blueprint 2020. The fair will provide an opportunity for all Public Servants to learn more about the changes that are taking place across the Public Service. The agenda is being designed in a way that allows individuals to participate in different segments throughout the day – either in person or remotely. All public servants are invited to participate.

The easiest way for your organization to get involved is by hosting a booth in the tradeshow area. The tradeshow area will be open for the full day and will feature booths hosted by departments and agencies, horizontal initiatives and functional communities. In addition to the booths, interactive workshops and presentations will be held throughout the day. In order to facilitate increased participation across Canada, we are actively seeking participation from the regions.

Your January progress letters to the Clerk provided many excellent examples of actions towards achieving the Blueprint 2020 vision. You have so much to be proud of. The fair will be an opportunity to showcase the inspiring work you highlighted then.

I urge you to get involved. We can all come together to demonstrate that change is happening every day. Let's take pride in the work that we do.

To confirm your desire to be involved or obtain additional information, please contact the Blueprint 2020 National Secretariat at BLUEPRINT2020@canada.gc.ca.

Annex B

Please provide the information – both in French and English – as it will appear on all promotional materials:

Name of initiative

- French: Au-delà des murs : une visite virtuelle d'un pénitencier canadien.
- English: Beyond the Fence: A Virtual Tour of a Canadian Penitentiary

Department/Service

- French: Service correctionnel du Canada (SCC)
- English: Correctional Service of Canada (CSC)

Webpage

- French: <http://www.csc-scc.gc.ca/index-fra.shtml>
- English: <http://www.csc-scc.gc.ca/index-eng.shtml>

Set-up requirements: (Be as specific as possible)

Please provide a 4 or 6 foot table.

CSC will be bringing a display backdrop and whitescreen.

Technical requirements: (Be as specific as possible)

CSC will be using a projector and two laptops. Please ensure we are close to a power outlet if possible, otherwise, please provide an extension cord(s) to support the equipment mentioned.

No network connection required.

Chers collègues,

présidente du Sous-comité sur la mobilisation de la fonction publique du Conseil de gestion et renouvellement de la fonction publique, a envoyé le courriel ci-joint à votre administrateur général pour l'inviter à participer au premier Salon interministériel de l'innovation, qui aura lieu le 16 avril 2015 au nouveau laboratoire de services d'Industrie Canada.

Le Salon visera à favoriser l'innovation par l'échange de pratiques exemplaires et de leçons apprises liées à la mise en œuvre d'Objectif 2020. Le Salon sera l'occasion pour tous les fonctionnaires d'en apprendre davantage sur les changements qui se déroulent dans l'ensemble de la fonction publique. L'ordre du jour est conçu de manière à permettre aux individus de participer, soit en personne soit à distance, à des segments différents tout au long de la journée. Tous les fonctionnaires sont invités à participer.

La façon la plus facile pour votre organisation d'y participer est de tenir un kiosque dans la zone professionnelle. La zone, qui sera ouverte toute la journée, présentera des kiosques animés par des représentants de ministères et d'organismes, d'initiatives horizontales et de communautés fonctionnelles. En plus des kiosques, des ateliers et des exposés interactifs auront lieu tout au long de la journée. Afin de faciliter la participation de toutes les régions du Canada, nous recherchons activement la participation des bureaux régionaux.

Dans vos lettres de janvier à l'intention de la greffière sur l'état d'avancement des travaux, vous avez fourni d'excellents exemples des mesures prises pour réaliser la vision pour Objectif 2020. Vous avez tant de raisons d'être fiers. Le Salon sera l'occasion de mettre en évidence les travaux inspirants dont vous avez fait mention dans ces lettres.

Je vous encourage fortement à vous impliquer. Nous pouvons tous nous rassembler pour montrer que le changement se vit au quotidien. Soyons fiers du travail que nous faisons.

Pour confirmer votre désir de participer ou pour obtenir plus amples renseignements, veuillez communiquer avec le Secrétariat national pour Objectif 2020 à Objectif2020@canada.gc.ca.

Hello,

Trying to send this again.....

CSC form as requested.

Thank you.

Great thanks.

In order to gain a better understanding of the initiative(s), we are asking all booth holders to please fill out the attached template and send it back to us by the end of the week. Please fill out the template for each initiative that will be showcased at your booth.

I will be confirming all booth spaces more formally next and providing a more detailed information package next week.

Thank you for your cooperation. We look forward to welcoming you in April!

Hello,

We will confirm shortly – but yes we probably will have a departmental banner.

Hello!

Thanks for getting back to me. The booth space is 10 ft wide x approx. 7 ft deep. With one 5 foot table.

Please let me know if this will work! Would you be bringing a departmental banner or backdrop?

Hello

We probably will be looking at the booth option. Can we know what are the measurement of the booth please.

Thank you!

Subject: RE: Interdepartmental Innovation Fair / Salon interministériel de l'innovation

Hi :

I am leading on the tradeshow aspect of the Innovation Fair and I just wanted to follow up with you to see if CSC was still interested in getting involved in the fair. The easiest way for to get involved is to host a booth at the tradeshow but as my colleague Joyce mentioned in her email below, there is also opportunity to showcase your virtual tool with a presentation during a FedTalk session (and we think it would fit in really well there). There is also opportunity to do both!

The objective of the fair is to foster innovation through the sharing of best practices and lessons learned related to the implementation of Blueprint 2020 and the tradeshow is an opportunity for departments to showcase their latest Blueprint 2020 initiatives and their progress towards the Blueprint 2020 vision.

The tradeshow area will be open for the full day from 9:30 am – 4:30 pm.

We want to ensure to the best of our ability that everyone who has expressed interest in participating in the tradeshow will have the amount of space necessary to effectively showcase their initiative(s). With that in mind, we are asking all interested booth holders to please let us know which of the three space options they would require as soon as possible:

Poster Space (4 feet) – The space will include a small table, and space to post documents on the wall. This space is ideal for exhibitors that want to share their information using tablets and/or small posters

Innovation Space (7 feet) – The space will include a medium size table. This space is ideal with exhibitors who would like to set up laptops or other table top displays. Please note you will not be able to post anything on a wall in these spaces

Booth Space (10 feet) – The space will include 1 five foot table. This space is ideal for those with large backdrops and departments who will have several groups show casing initiatives under the departmental banner.

All booths will be confirmed and a more detailed information package will be sent next week.

If you have any questions, please let me know or feel free to give me a call.

We look forward to welcoming you in April!

Hi:

Thanks for your interest in the Fair! Sorry about the delay in my reply; my inbox has been a backlogged with all of the expressions of interest in the Fair.

I agree with you what you're proposing sounds really interesting and definitely the type of initiative we'd like to showcase. There are two ways we could do this; with a presentation during a FedTalk session or a kiosk in our tradeshow.

There will be 5 FedTalks at the Innovation Fair:

- Fundamentals of Public Service
- Processes and Empowerment
- Technology
- People Management
- Innovative Practices and Networking

Each FedTalk is 30 minutes long, with 2-3 presenters will each give 5 minute Ignite style presentations, followed by 10-15 minutes for questions and answers.

Each FedTalk in the series will communicate concrete actions that have taken place/are taking place related to Blueprint 2020. Audience members will be able to walk away and think about how they can do similar things in their own departments/agencies or how they can use the new tools/processes that are being put in place.

I think your virtual tool would fit perfectly into the technology FedTalk but am not sure that a 5 minute presentation would be an adequate amount of time for you to demo it. Your other option would be to host a kiosk in the tradeshow and demo it at your kiosk. The tradeshow room is equipped with WiFi and we can chat about any other technology you might need at your booth.

I'm happy to have a chat about the two options but and really open to which ever one you prefer.

Enjoy your weekend!

Good morning,

Thank you for the opportunity to participate and be involved in this exciting Fair. CSC would be please to showcase the virtual tour of a penitentiary entitled "*Beyond the Fence: A Virtual Tour of a Canadian Penitentiary*". This virtual tool provides Canadians with an opportunity to see inside a federal institution from any computer with Internet access. Viewers can tour a minimum, medium and maximum security cell and range, as well as various other areas of an institution including the chapel, workshop, programs room and health care centre.

Given it's innovative nature, I believe it would be a perfect fit for the fair.

I look forward to hear from you.

Merci!

Subject: Interdepartmental Innovation Fair / Salon interministériel de l'innovation

Dear colleagues,

Chair, Board of Management and Renewal Sub-Committee on Public Service Engagement, sent the attached e-mail to your deputies inviting them to participate in the first Interdepartmental Innovation Fair which will take place at Industry Canada's new Service Lab on April 16, 2015.

The objective of the fair is to foster innovation through the sharing of best practices and lessons learned related to the implementation of Blueprint 2020. The fair will provide an opportunity for all Public Servants to learn more about the changes that are taking place across the Public Service. The agenda is being designed in a way that allows individuals to participate in different segments throughout the day – either in person or remotely. All public servants are invited to participate.

The easiest way for your organization to get involved is by hosting a booth in the tradeshow area. The tradeshow area will be open for the full day and will feature booths hosted by departments and agencies, horizontal initiatives and functional communities. In addition to the booths, interactive workshops and presentations will be held throughout the day. In order to facilitate increased participation across Canada, we are actively seeking participation from the regions.

Your January progress letters to the Clerk provided many excellent examples of actions towards achieving the Blueprint 2020 vision. You have so much to be proud of. The fair will be an opportunity to showcase the inspiring work you highlighted then.

I urge you to get involved. We can all come together to demonstrate that change is happening every day. Let's take pride in the work that we do.

To confirm your desire to be involved or obtain additional information, please contact the Blueprint 2020 National Secretariat at BLUEPRINT2020@canada.gc.ca.

Chers collègues,

présidente du Sous-comité sur la mobilisation de la fonction publique du Conseil de gestion et renouvellement de la fonction publique, a envoyé le courriel ci-joint à votre administrateur général pour l'inviter à participer au premier Salon interministériel de l'innovation, qui aura lieu le 16 avril 2015 au nouveau laboratoire de services d'Industrie Canada.

Le Salon visera à favoriser l'innovation par l'échange de pratiques exemplaires et de leçons apprises liées à la mise en œuvre d'Objectif 2020. Le Salon sera l'occasion pour tous les fonctionnaires d'en apprendre davantage sur les changements qui se déroulent dans l'ensemble de la fonction publique. L'ordre du jour est conçu de manière à permettre aux individus de participer, soit en personne soit à distance, à des segments différents tout au long de la journée. Tous les fonctionnaires sont invités à participer.

La façon la plus facile pour votre organisation d'y participer est de tenir un kiosque dans la zone professionnelle. La zone, qui sera ouverte toute la journée, présentera des kiosques animés par des représentants de ministères et d'organismes, d'initiatives horizontales et de communautés fonctionnelles. En plus des kiosques, des ateliers et des exposés interactifs auront lieu tout au long de la journée. Afin de faciliter la participation de toutes les régions du Canada, nous recherchons activement la participation des bureaux régionaux.

Dans vos lettres de janvier à l'intention de la greffière sur l'état d'avancement des travaux, vous avez fourni d'excellents exemples des mesures prises pour réaliser la vision pour Objectif 2020. Vous avez tant de raisons d'être fiers. Le Salon sera l'occasion de mettre en évidence les travaux inspirants dont vous avez fait mention dans ces lettres.

Je vous encourage fortement à vous impliquer. Nous pouvons tous nous rassembler pour montrer que le changement se vit au quotidien. Soyons fiers du travail que nous faisons.

Pour confirmer votre désir de participer ou pour obtenir plus amples renseignements, veuillez communiquer avec le Secrétariat national pour Objectif 2020 à Objectif2020@canada.gc.ca.
